

JÉRÔME ABEL

FRONT-END ENGINEER

La Rochelle, France — remote-friendly

dev.jeromeabel.net

PROFILE

Front-End Engineer with over ten years of experience in interactive multimedia creation, combining creativity and collaboration to build innovative solutions focused on user experience and software quality.

EXPERIENCE

2026
2025

Front-End Engineer — Uhlive (*current*)

Front-end development of the web app (phone calls) — Vue.js:

- Improved web performance from 4 to 2.5 seconds
- Major UI modernization with a new Design System
- Added modular systems for user preferences
- Energized the Product Design culture (Figma, prototypes, tests, reviews)
- Automated the development workflow with AI assistants

2025
2024

Web Developer — Raccourci Agency

Improved the agency's internal tools — Vue.js, Kotlin, Node.js, SQL:

- Improved quote creation with customizable templates
- Full rework of the quote PDF export, complexity cut by 50%
- Made client account data reliable and consistent (scripts)
- Added Odoo modules to legacy code (Python 2.7, Odoo 8)
- Raised client email deliverability from 86% to 95%

2023

Mobile Developer — YooHelp

Development of the YooHelp mobile app with React Native:

- Designed a mobile + web monorepo environment with NX
- Wrote technical documentation, specifications and models

2022
2018

Multimedia Artist — Freelance

Software and hardware prototyping for audiovisual creation:

- Built a video-tracking program with C++/OpenCV
- Built a desktop app with Node, WebSockets and WebGL
- Built a fast, responsive website with Hugo
- Wrote 24/7 remote-maintenance scripts in Shell, CRON and Syslog

2018
2010

Multimedia Developer — Freelance & Reso-nance Numérique

Digital creation and D.I.Y. community in Marseille:

- Built a multimedia creation framework, downloaded 5000 times
- Supported 100 projects in the LFO Fablab and art schools
- Trained 1000 students in interaction technologies
- Created interactive robots shown 15 times in France and abroad
- Built web features in PHP, Ajax and SQLite
- Built a VST plug-in for sound spatialization
- Built a sound-file utility with C++/Qt and SoX
